REPORT

OF THE

UNDER-SECRETARY OF STATE.

To the Honourable
PIERRE EDOUARD BLONDIN,
Secretary of State of Canada.

SIR,—I have the honour to submit to you a statement of the work of the Correspondence Branch of the Department of the Secretary of State for the year ended March 31, 1916.

INCORPORATION OF COMPANIES.

The number of companies incorporated under the Companies' Act during the fiscal year 1915-1916 was 534 with a total capitalization of $157,342,800 and the number of existing companies to which Supplementary Letters Patent were issued was 71 of which 28 increased their capital stock $68,996,000, 11 decreased their capital stock $4,811,700, the remaining 32 were granted Supplementary Letters Patent for various objects such as changing names, extending powers, etc., making a total of 605 charters and supplementaries issued during the year, an increase of 59 as compared with previous year; whilst the total capitalization of new companies and the increased capital of existing companies amounted to $221,527.100.

Particulars as to the capital stock, etc., of the companies incorporated or granted Supplementary Letters Patent during the twelve months, together with the date, etc., of the *Canada Gazette* in which the objects and powers are set forth, will be found in my report of the work of the Registrar's Branch of the Department.

NATURALIZATION OF ALIENS.

In my report as Deputy Registrar General above referred to, full particulars are given of all naturalizations effected throughout the Dominion for the twelve months since the date of the last return, viz., to December 31, 1915. Complete returns showing the names, places of residence, and former nationalities of all Canadian naturalized subjects of His Majesty are tabulated and recorded in the Registrar's Branch of the department, and are always available for reference.

The payments to the court officers, charged with the making of naturalization returns, details of which will be found in the report of the Auditor General, amounted to $5,652.23. All the correspondence in connection with the returns and all the accounts for the same were dealt with in this branch.

The Report of the Naturalization Branch which was organized to supervise applications under the Naturalization Act, 1914, will be found immediately following the Report of the Registrar's Branch.

CANADA TEMPERANCE ACT.

During the past year the Act was repealed in the Counties of Queens and Shelburne, Nova Scotia. Elections were also held in the Counties of Perth, Ontario, and Brome, Quebec, for bringing the Act into force, and the vote in both these Counties resulted in the bringing into force of the Act. An election was held for the repeal of the Act in the County of Annapolis, N.S., and as a result of a protest, the result has not yet been reported to the Department. The result of the protest proceedings in the election in the previous year for bringing the Act into force in Stanstead, P.Q., has also not been reported to the Department.

At this date the Act is in force in the following counties and cities:—

Ontario.

Counties of Peel, Huron, Perth and district of Manitoulin.

Quebec.

City of Thetford Mines, Brome.

Nova Scotia.

Counties of Annapolis, Digby, Guysborough and Yarmouth.

New Brunswick.

Counties of Albert, Carleton, Charlotte, Kings, Northumberland, Queens, Sunbury, Westmorland and York, and city of Fredericton.

Manitoba.

Lisgar and Marquette.

The Act is not in force elsewhere in the provinces or territories.

RECEIPTS AND EXPENDITURES.

Subjoined is a statement of the revenue of the department for the fiscal year ended March 31, 1916:—

Charters and supplementary charters	$ 133,365 50
Commissions	504 00
Certificates of Deposit	198 00
Certificates of Legalization	52 00
Certificates of Incorporation, Boards of Trade	25 00
Certificates of Registration, Trade Unions	8 00
Certificates, copies and certified copies	719 00
Certificates of Naturalization, The Naturalization Act, 1914	313 00
Refund on account of 1914-15 expenditure	11 25
Total	$ 135,195 75

Of the foregoing amount, the sum of $22,702.45 was transferred to the King's Printer for advertising notices of letters patent under the Companies Act in *The Canada Gazette*; $1,054.50 was refunded upon applications withdrawn or not granted and $26.25 was transferred to other departments, leaving a net amount of $111,412.55.

The net revenue exceeded the expenditure of the Department for salaries and contingencies by $25,205.41, and after providing for the customary expenditure, under The Naturalization Acts, the cost of supplying the library of the High Commissioner's Office in London with Canadian books and periodicals; the annual subscription of the Government to the International Catalogue of Scientific Literature; expenses under The Canada Temperance Act, etc.,—left a credit balance.

GENERAL.

The duties cast upon the Department arising from the war have added heavily to the volume of work. The publication of the Compilation of Proclamations, Orders-in-Council and other documents relating to the War has been a matter of great labour The Third Supplement, now issuing from the Press, aggregates more than 2,000 pages of documents and 1,000 pages of appendices. The main purpose of the publication is to provide a convenient method of reference to the various official documents issued not only in Canada but in the United Kingdom relating to the war, and to afford a complete history of the documentary development of the war administration. The appendices consist of the various statutes, treaties and despatches referred to in the documents themselves, and also various British blue books relating to the war in which Canadians are interested.

The Consolidated Orders respecting Trading with the Enemy also confer wide authority and extensive duties upon the Department of the Secretary of State of Canada. During the progress of the war nothing more than a reference to these duties need be made.

The distribution of the Report of the Committee on Alleged German outrages appointed by His Britannic Majesty's Government and presided over by the Right Honourable Viscount Bryce, O.M., etc., has resulted in a large increase in the work of the library staff and has made it necessary to employ extra help. These publications are highly appreciated and applications for them are coming in every day. The alterations to the Eastern Block building will necessitate the removal of all the books and documents, etc., in the Library to some safe place accessible to the Departments and to the public.

My report of the work done in the Registrar's Branch of the department follows this. In addition to the list of charters of incorporation and supplementary charters, and the returns of naturalization already mentioned, it contains a list of all boards of trade registered in the department, trade unions, loan companies, licenses granted to British and foreign companies, commissions issued to public officers, and other useful information.

The synopsis of returns to addresses and orders passed by the Senate and House of Commons of Canada during the session of 1916, received and prepared by the department, and presented through the Secretary of State, will be found in Appendix A.

The Civil Service List of Canada for the year 1916, showing the names, dates of appointments, and promotion, ages and salaries of all persons permanently employed in the several departments of the service and the two Houses of Parliament on April 1, 1916, is now in course of preparation.

I have pleasure in expressing my satisfaction with the manner in which the staff of the department have performed their duties during the year.

I have the honour to be, sir,
Your obedient servant,

THOMAS MULVEY,
Under-Secretary of State.

OTTAWA, April 1, 1916.

REPORT OF NATURALIZATION BRANCH DEPARTMENT OF THE SECRETARY OF STATE.

OTTAWA, April, 1916.

SIR,—I have the honour to submit for your information a statement of the work of the Naturalization Branch of the Department of the Secretary of State for the year ending March 31, 1916.

The operations of the Naturalization Act, 1914, during the war has been largely limited. On the one hand, at the request of the Home Authorities, Naturalization Certificates were refused to persons of alien enemy origin, and on the request of certain of the Allies, Naturalization Certificates were refused to subjects of these countries unless they could show that they had performed their military service, or could produce a Consular Certificate that they were released from such military service. The despatches upon which the Department of the Secretary of State has acted, in arriving at this conclusion are to be found in appendix "S" of the Second Supplement of the Volume containing Proclamations, Orders-in-Council and Documents relating to the European War. This action is taken by the department itself. In some cases judges of courts have undertaken to refuse to report that applicants are fit and qualified to be naturalized because of their alien enemy or allied nationality. This should not be done, and a number of the judges' attention has been called to the matter. The judges are called upon to pass upon the question whether applicants are fit and qualified to be naturalized under Section 2, and it is in the discretion of the Secretary of State alone, as to whether the certificates should then be granted.

The number of Certificates of Naturalization granted under the Naturalization Act, 1914, for the twelve months ended December 31, 1915, was 120. A schedule showing the former nationalities of persons naturalized under the Naturalization Act, 1914, as registered in this branch during the twelve months ending December 31, 1915, will be found on the following page.

REPORT OF THE COMMISSIONERS

The Commissioners of the Civil Service herewith submit the Eighth Annual Report of the operations of the Commission covering the twelve months from September 1, 1915, to August 31, 1916.

The usual tables furnishing particulars as to the work of the Commission for the year are given in the appendix, as also copies of the regular and special examination papers set for entrance to the Inside and Outside Services, for special promotions and naval cadetships. While these tables furnish complete details, a summary of the results of the year will perhaps render the general operations of the Commission more intelligible.

In November, 1915, the regular semi-annual examinations were held in thirty-two centres throughout the Dominion, and at these, 1,183 candidates sat for examination. In May, 1916, similar examinations were held at thirty-five centres, ranging from Dawson City to Halifax, and 1,366 candidates sat for examination. Grouping the results of these two sets of examinations, there were 1,216 candidates for the Preliminary Examinations for the Outside Service, and of these 759 were successful. For the Qualifying Examination for the Outside Service there were 367 candidates, of whom 151 were successful. It may be remarked that the Preliminary Examination for the Outside Service corresponds in point of quality to the Lower Grade Examination for the Inside Service, and the Qualifying Examination for the Outside Service corresponds to the Third Division Examination for the Inside Service. At the same time, the Preliminary Examination for the Outside Service qualifies for such positions as postal and railway mail clerks, which are of the same grade, but often with higher salaries, as the Third Division positions for the Inside Service. As appointments to the Outside Service do not lie with the Commission, it is not possible to state how many of the successful candidates for that service receive appointments of either a temporary or permanent nature.

At the Lower Grade Examination for the Inside Service, qualifying for messengers, sorters, packers, etc., there were only sixty-eight candidates, of whom thirty-seven were successful. During the year, however, only two of these received permanent appointments. On the other hand, during the same period, seventy-nine were appointed to lower grade positions, thirty-two in a permanent and forty-seven in a temporary capacity, as the result of nomination by departments and subsequent qualification under the tests prescribed by the Commission.

During the year, 140 vacancies were advertised in grade B of the Third Division, and for these there were 698 competitors, of whom 140 candidates were successful,

eighty-one being women and fifty-nine men. As usual, practically all of the men who qualified were accepted as successful candidates. Many women, however, obtained higher marks than the minimum prescribed, but the limited number of vacancies and the sharpness of the competition precluded many of those otherwise qualified from being successful competitors. The remainder were offered temporary employment in the Service, the majority of them in connection with the special census work referred to below.

In Grade B of the Second Division there were thirty-five vacancies, for which 154 candidates competed. The first thirty-five men on the list were accordingly declared successful, and seven women who stood equally high were accepted as eligible for appointment to the Third Division, or to the Second Division on special requisition by any department. The latter, however, is a rare occurrence, as few women are requested in the Second Division.

Twenty-six candidates were nominated by the several departments for the qualifying promotion examination from the Third Division to the Second Division, as provided for and limited to those clerks who were classified in the Third Division at the time of the reorganization of the Service in 1908. Of these candidates, twelve were successful and passed over to the Second Division.

The annual examination for naval cadets was held in May, 1916. There were twenty candidates, of whom sixteen were successful.

The quinquennial census for the Western Provinces having taken place during the year, a considerable number of extra clerks were requested to compile the returns received. Through special examination of the Third Division grade, in which the preference was given to those who had previously served on the decennial census staff, thirty-nine special clerks were added to the permanent staff of the Census Branch of the Department of Trade and Commerce. Temporary clerks were added later from candidates having certificates as university graduates or matriculants, professional or non-professional teachers, etc. All of whom were of considerably higher grade than the ordinary candidates for the Third Division Examination.

As usual, a number of special open competitions were arranged for appointments to positions of a more or less technical or professional nature in the Second and First Divisions. Through these special competitions, fourteen successful candidates were obtained and the corresponding appointments made, thirteen of them being in grade B of the Second Division and one in grade B of the First Division. In the case of four other special positions, while the successful candidates were selected by open competition, yet, owing to certain restrictions, chiefly in the age limit, they could not be appointed on the certificate of the Commission alone, and were therefore nominated by the respective departments under section 21 of the Civil Service Act, and appointed by Order in Council. These positions were in grade A of the Second Division.

In the case of twenty other special positions, in most cases after consultation between the Commission and representatives of the departments, and subsequent

concurrence as to the satisfactory qualifications of those proposed for appointment, each candidate was formally nominated by a department without competitive selection, a certificate of qualification furnished by the Commission, and the appointment made by Order in Council. As to grades, these appointments ranged from subdivision B of the Second to subdivision A of the First Division.

Owing to the continuance of abnormal conditions, incidental to the war, in connection with certain departments and special commissions, a very large number of temporary clerks have been employed at Ottawa, chiefly under the authority of the Special War Measures Act, and they have been paid out of the war appropriations. Under the exemptions authorized in these cases, none of these temporary clerks required a certificate of qualification from the Civil Service Commission, and being otherwise free from the restrictions of the Civil Service Acts, the rates of remuneration which they received were not restricted to the amounts prescribed for either permanent or temporary employment in the regular Inside Service. In the face of these conditions, in the past two years, the Commission has had to furnish duly qualified clerks for permanent and temporary appointments at rates of remuneration considerably below those offered in the temporary unorganized service.

During the year there have been furnished under the certificates of the Commission, 326 clerks for temporary employment in the Third Division, fifty of whom were selected from the lists of successful candidates for permanent appointment, about half of whom have been already permanently appointed. The remaining 276 were taken, partly from the lists of those who had qualified for selection in the Third and Second Divisions but had not come within the number required for permanent appointment, partly also as the result of special tests for temporary employment, chiefly as stenographers and typewriters, and, lastly, from those who presented certificates or other evidence of educational qualifications either superior or equal to the standard of our Third Division Examinations. In all cases the persons selected for such temporary employment were taken, as far as ascertainable, in the order of merit from those who were listed at the time of appointment.

During the past year, sixty-two certificates of qualification for promotions have been issued by the Commission. As between the various grades of the Service, these were distributed as follows:—

From 3B to 3A	21
" 3A to 2B	12
" 2B to 2A	18
" 2A to 1B	7
" 1B to 1A	4

Under a general understanding with the departments, certificates of promotion have not been issued for clerks who are absent on military service, and who are not, therefore, in the meantime able to discharge their civil duties. It is, however, the expressed understanding of the Commission, in issuing certificates for promotion since the outbreak of the war, that any clerk who is absent on military service and who, had he remained in the Civil Service, would have been eligible for promotion, shall not be deprived of his claim for promotion on his return on account of having been absent on active military service.

Since the outbreak of the war successful candidates for Civil Service positions have been encouraged to enlist, the Commission undertaking to continue their names on the lists of successful candidates and to give them the preference for appointment on their return. Since the issue of the recent Orders in Council restricting the employment of men of military age who are eligible for enlistment, no one eligible for military service, and who has not received a badge of exemption, has been given a certificate of qualification for appointment to the Service.

It is understood from military reports that the best qualified of the Canadian officers and soldiers who are discharged from time to time as unable to continue active service at the front, are still retained in other branches of the military service instead of being returned to Canada. On the other hand, such as do return find ready employment, in the meantime at least, at good rates of remuneration owing to the dearth of well-qualified persons in so many special lines of activity created or enlarged by the necessities of the war. When the war is over, however, and the general body of the Canadian army returns to Canada, and when the special war industries have been reduced or closed, there is likely to be relatively limited employment for many army men exceptionally well qualified for the various grades of the Civil Service. In the interest, therefore, both of those who have faithfully served their country abroad and are also well qualified to serve it at home, the vacancies in the Service in the meantime should be filled only temporarily. Then at the close of the war such of these vacancies as are likely to become permanent positions can be opened by competition to the returned soldiers, whether occupying them temporarily or not, and filled by those whose training and experience indicate their superior qualifications for any special lines of service.

It is beyond question that neither the permanent nor temporary service of the Dominion Government will be able to absorb more than a fraction of the returned soldiers who are eligible for appointment. Hence, the only policy fair to them all and in the interest of economy and efficiency in the Service will be that of awarding the government appointments to those best qualified to fill them.

ADAM SHORTT,

M. G. LAROCHELLE,

Commissioners.

OTTAWA, September, 1916.

APPENDIX

THE REGULATIONS OF THE CIVIL SERVICE COMMISSION WITH REFERENCE TO ENTRANCE TO THE SERVICE AND PROMOTION IN THE SERVICE.

(Approved by His Excellency the Governor General in Council, on the 19th April, 1909. Amendments approved on the 22nd February, 1911, the 21st March, 1913, and the 12th April, 1915.)

In accordance with section 10, clause 2, of the Civil Service Amendment Act, 1908, requiring that the duties of the Civil Service Commission "shall be performed in accordance with regulations made by the Commission, and approved by the Governor in Council," the following regulations have been prepared by the Commission:—

EXAMINATIONS FOR ENTRANCE TO THE INSIDE SERVICE.

1. In order to comply with section 13 of the Civil Service Amendment Act, which states that "except as herein otherwise provided, appointment to positions in the Inside Service under that of deputy head shall be by competitive examination, which shall be of such a nature as will determine the qualifications of candidates for the particular positions to which they are to be appointed, and shall be held by the Commission from time to time in accordance with the regulations made by it and approved by the Governor in Council," the Commission will provide for general competitive examinations for entrance to the following divisions and subdivisions of the Inside Service:—

(*a*) Clerks for Subdivision B of the Third Division.
(*b*) Clerks for Subdivision B of the Second Division.

2. In accordance with section 15 of the Civil Service Amendment Act, the number of competitors to be selected, for appointment to the Service, from those taking the examinations for the above divisions, shall be computed by the Commission on the basis of the reports from the several departments as to their probable requirements for the ensuing six months.

3. The general competitive examinations shall be held twice a year, in the months of May and November. Forms on which applications for these examinations shall be made will be provided by the Commission, and may be had on application to the Secretary of the Commission. Where not less than three candidates make application to take an examination at the same place, general competitive examinations shall be held at the following places: Sydney, Halifax, Yarmouth, Charlottetown, St. John, Fredericton, Moncton, Quebec, Sherbrooke, Montreal, Ottawa, Kingston, Hamilton, Toronto, London, Sault Ste. Marie, Port Arthur, Winnipeg, Brandon, Regina, Saskatoon, Calgary, Edmonton, Nelson, Vancouver and Victoria. Examinations may also be held at such other places as may be selected by the Commission for the convenience of candidates applying for examination.

(2) Where competitive examinations are required involving technical or scientific subjects and necessitating the use of scientific apparatus, it shall not be necessary to hold such examinations at each of the above places, but the Commission shall, as far as possible, arrange for at least one place in each province where such examinations may be taken.

4. Any examination may be taken in the English or French language, at the option of the candidate.

5. A general examination for messengers, porters, sorters and packers shall be held annually in the month of May, at the same places as the general examinations

for the Third and Second Divisions, and shall include the following subjects of the ordinary public school standard: Writing, spelling and the first four rules of arithmetic. The minimum percentage of qualification shall be fifty per cent on each subject and sixty per cent on the whole examination.

6. Where messengers, porters, sorters and packers require certificates of qualification and fitness under section 22 of the Civil Service Amendment Act, the Commission may require any or all of these to pass an examination which shall be as nearly as may be of the same standard as that set for those who take the general examination for entering that grade of the Service.

7. The general competitive examination for clerkships of Subdivision B of the Third Division shall include the following subjects: Writing and copying manuscripts, spelling, composition, arithmetic, geography, history, typewriting. The maximum number of marks for each subject shall be one hundred, except in the subjects of writing and copying manuscripts, for each of which the maximum number shall be fifty marks. No candidate shall be selected for appointment to a position in the Third Division who secures less than fifty per cent of the marks assigned to the subjects of spelling, composition and arithmetic and sixty per cent of the marks assigned to the whole examination. The standard of examination shall require a good general knowledge of the above subjects.

8. Candidates may take, in addition to the foregoing subjects, either or both of the subjects of stenography and book-keeping. Where candidates obtain over sixty per cent of the marks assigned to either or both of these subjects, the marks above sixty per cent may be added to the total of the marks obtained on the compulsory subjects in determining the relative standing of the candidates in the general examination.

9. Persons employed in the Civil Service, in the Third Division, may take the general competitive examination for entrance to the Second Division under the following regulations:—

(1) Such persons must be between the ages of eighteen and thirty-five years at the time of examination.

(2) Their records in the reports to be furnished under the Civil Service Amendment Act must be good.

10. To insure the availability of a sufficient number of competent typewriters and stenographers, the Commission may appoint a special competitive examination for typewriters and stenographers, for Subdivision B of the Third Division, which shall include the following subjects:—Typewriting, stenography, writing and copying manuscripts, spelling and composition. Successful candidates must obtain at least fifty per cent of the marks assigned to each subject and sixty per cent of the marks assigned to the whole examination.

(2) Where a sufficient number of typewriters and stenographers are not available among those who have taken the full examination for Subdivision B of the Third Division, the requirements of the departments may be supplied by appointing, in order of merit, those who have taken the special examination for typewriters and stenographers.

(3) No one appointed as the result of such special examination shall be considered as eligible for promotion to Subdivision A of the Third Division who has not subsequently qualified in the additional subjects of arithmetic, history and geography, as required for the regular examination for entrance to the Third Division.

11. Where candidates for employment as temporary clerks require certificates of qualification and fitness under section 23 of the Civil Service Amendment Act, the Commission may require any or all of these to pass an examination which shall be as nearly as may be of the same standard as that set for those who take the general examination for entering that grade of the service.

12. Candidates for the general competitive examination for clerkships of Subdivision B of the Second Division shall take all the subjects in group A of the following list, and any five in group B:—

A.—Writing, Spelling, Composition, Literature, Arithmetic.

B.—Algebra, Geometry, Physics, Chemistry, Geology (including mineralogy), Biology (animal and vegetable), French (for those taking the general examination in English), English (for those taking the general examination in French), Latin, German, History (modern), Political Science, Economics, Geography (general, physical and commercial), Philosophy (scholastic or general), Law (English or Civil).

(2) The maximum number of marks for each subject shall be one hundred, except in the subject of writing, for which the maximum number shall be fifty marks.

(3) No candidate shall be selected for appointment to a position in Subdivision B of the Second Division who secures less than forty per cent of the marks assigned to each subject in group A, and sixty per cent of the marks assigned to the whole group.

(4) No candidate shall be selected for appointment to a position in Subdivision B of the Second Division who secures less than thirty per cent of the marks assigned to each subject in group B, and forty per cent of the marks assigned to the five subjects selected.

(5) The standard of examination shall require a good general knowledge of the subjects selected from the above groups. In order that due regard may be had to the different educational systems in Canada, a curriculum shall be prepared by the Commission showing, with as much detail as possible, the ground to be covered under each of the subjects in the above groups A and B. A copy of this curriculum shall be supplied to any person on making application to the Secretary of the Commission.

13. Candidates may take, in addition to the foregoing subjects, any or all of the subjects of typewriting, stenography, and book-keeping. Where candidates obtain over sixty per cent of the marks assigned to any one or more of these subjects, the marks above sixty per cent may be added to the total of the marks obtained on the whole examination in determining the relative standing of the candidates.

14. Where the deputy head of a department applies to the Commission for a nomination to a clerkship in Subdivision B of the Third Division requiring special qualifications not covered by the general examination for that division, or for a nomination to a clerkship in Subdivision B of the Second Division requiring special qualifications in technical or scientific subjects, a special competitive examination may be provided by the Commission, instead of the general competitive examinations for either of these subdivisions. The subjects for such special examination shall be arranged between the Commission and the deputy head of such department.

15. Where the deputy head of a department applies to the Commission for a nomination to a position above that of Subdivision B of the Second Division, which requires to be filled by appointment from without the Service, the Commission shall, after consultation with the deputy head of the department in which the appointment is to be made, provide a special competitive examination or test, which may or may not involve written answers to questions, but which shall be of such a nature as to secure a person well qualified for the position to be so filled. In determining the qualifications of candidates for such positions, the examination or test shall have special reference to executive ability and tact, such special or professional training as may be required, and a successful experience in duties similar to those pertaining to the positions to be filled.

16. Where the appointment is one which is to be made under section 21 of the Civil Service Amendment Act inasmuch as the person to be appointed requires to obtain from the Commission a certificate that he possesses the requisite knowledge and ability, the Commission, with the consent and co-operation of the head and

deputy head of the department in which the appointment is to be made, may arrange a form of examination or test, by which to determine whether the person is qualified. On satisfying the Commission that he is duly qualified, such person will receive the certificate of the Commission.

17. When the selection is made by the head and deputy head of the department without reference to the Commission, the Commission may make such inquiries and appoint such an examination or test to determine the qualifications of the person so nominated as it may deem necessary for an intelligent and responsible discharge of its duties.

PROMOTIONS IN THE INSIDE SERVICE.

18. A candidate who is recommended by the head of a department for promotion, other than from the Third to the Second Division, in order to receive the prescribed certificate of qualification, must satisfy the Commission of his ability to perform the duties of the position to which he is to be promoted. For this purpose the Commission, if it considers an examination necessary, may, after consultation with the deputy head of the department in which the promotion is to take place, prescribe a promotion examination, having regard to the requirements of the subdivision to which the promotion is to be made, and the special duties of the position to be filled.

19. Where there are two or more persons in the employment of a department who are eligible for promotion to any vacant position, the Commission may, at the request of the head of the department, provide a competitive promotion examination limited to those who are declared eligible for promotion. Such an examination shall have regard to the requirements of the subdivision to which the promotion is to be made, and the special duties of the position to be filled. Upon the results of this examination, if satisfactory, the Commission shall issue the required certificate of qualification.

20. Candidates who, under subsection 2 of section 26 of the Civil Service Amendment Act, 1908, are nominated by the head of a department for promotion from the Third to the Second Division must, in order to receive the prescribed certificate of qualification, satisfy the Commission that they are entitled to enter the Second Division. To this end, the Commission, after consultation with the head or deputy head of the department in which the promotion is proposed, shall prescribe a non-competitive promotion examination which, while having special reference to the requirements of the positions to be filled, shall nevertheless insure a qualification substantially equivalent to that required in the open competitive examination for entrance to the Second Division. Such non-competitive promotion examination shall include all of the subjects in group A under regulation 12, any three of the subjects in group B under regulation 12, and two papers on the work of the department in which the candidate for promotion is engaged. The minimum percentages required for passing on the subjects included in group A shall be not less than forty per cent of the marks assigned to each subject and sixty per cent of the marks assigned to the whole group. The minimum percentages required for passing on the subjects selected from Group B shall be not less than thirty per cent of the marks assigned to each subject and forty per cent of the marks assigned to the three subjects, also that candidates must obtain at least fifty per cent on each of the papers on the work of the departments in which they are engaged. In the case of a candidate who does not obtain the minimum of forty per cent assigned to the three subjects selected from group B, but who obtains an excess of marks above the minimum percentage required on each of the papers on the work of the department, such excess shall be added to the marks obtained by him on the subjects selected from Group B for the purpose of estimating his percentage on the whole group. Where a candidate, who has obtained the aggregate marks required on the promotion examination, fails in one subject only,

not being one of the papers on the work of the department, such candidate may, on the recommendation of the deputy head of the department, complete the examination by writing on that subject alone at the ensuing examination. The minimum standard required on such subject shall be fifty per cent if the subject is in group A, and thirty per cent if the subject is in group B. Any candidate who fails only in the total number of marks assigned to Group A may, on the recommendation of the deputy head of the department, complete the examination by writing on that group alone at the ensuing examination.

21. All general competitive examinations for entrance to the Service shall be advertised in the *Canada Gazette* at least four weeks before the examinations are to take place. Special competitive examinations shall be advertised in the *Canada Gazette* at least two weeks before the examinations are to take place. Such advertisements shall state the number of positions to be competed for, the conditions to be complied with by the competitors, the subjects to be covered by any special examinations, and the places at which the examinations may be held.

22. Within one month after the publication of the results of a Civil Service examination any candidate who considers that his answer papers have not been correctly valued, may make application to the Commission to have his papers re-read. Such application must be accompanied by a fee of $3 in the case of the Third Division or lower examinations, and $5 in the case of the Second Division or higher examinations. In cases where the appeal is sustained the fee will be returned.

2. The answer papers of all candidates at any Civil Service examination, after being valued by the examiners, shall be retained by the Commission for a period of six months from the date of publishing the results, and at the end of that period they shall be destroyed.

23. Every successful candidate, before receiving a permanent appointment to the Inside Service, must furnish the Commission with a certificate of good health, which shall be filled out on standard forms to be furnished by the Commission.

(2) There shall be appointed by the Governor General in Council in each place where an examination is held one or more medical examiners, from whom such certificates shall be obtained.

(3) The fees for the health certificate shall be: For messengers, porters, sorters, packers, and for temporary clerks, two dollars ($2); for clerks of the Third Division, three dollars ($3); for clerks of the First and Second Divisions, five dollars ($5).

24. Every successful candidate, before receiving an appointment to the Inside Service, must furnish the Commission with references to at least three reputable persons who may be able to give adequate information as to the candidate's character and habits.

25. The following shall be the schedule of fees to be paid by the candidates at the several examinations held under the direction of the Commission:—

Examination for lower grade positions, a fee of	$ 2 00
Examinations for clerkships in Subdivision B of the Third Division, a fee of	4 00
Examinations for clerkships in Subdivision B of the Second Division, a fee of	8 00
Extra examinations which may be authorized from time to time for positions requiring special qualifications, a fee of	8 00
Promotion examinations:—	
In the Third Division	2 00

For higher divisions	5 00

(2) No fee shall be required for the privilege of taking optional subjects.

(3) The fees for the regular Third and Second Division examinations, for lower grade examinations, and for any special examinations, shall be payable by the candidates when making application for the examination. Should any candidate, after making application and paying the required fee, be unable to write on the examination, one-half the fee may be returned.

26. Copies of the reports of the "conduct and efficiency of all officers, clerks and employees below the First Division" which, in accordance with section 40 of the Civil Service Amendment Act, are required to be made in each department, shall be furnished to the Commission by the deputy heads of the various departments every three months.

(2) To insure uniformity these reports shall be made out on forms prepared by the Commission which may be procured by the departments upon requisition to the Government Stationery Office.

27. As soon as practicable, after the coming into force of these regulations, the deputy heads of the several departments shall furnish to the Commission, for the purpose of its Establishment Books, returns of the officers of their departments, with such particulars as to their past service and present employment as are provided for on the form prepared by the Commission.

28. The Secretary of the Treasury Board shall notify the Commission of all changes which take place in the organization of the offices in the several departments in the Inside Service, whether these changes result from the creation of new offices, the division or combination of existing offices, or the abolition of offices; also of all changes in the personnel of the officers holding respective offices in the several departments in the Inside Service, whether these changes result from original appointment, promotion, transfer, death, resignation or dismissal.

29. The Commission shall select examiners duly qualified to prepare the necessary examination papers and to value the answers of the candidates, in connection with the general and special examinations provided for in the Civil Service Acts and in these regulations.

(2) Each of the examination papers for the First and Second Divisions of the Inside Service shall be prepared and the answers valued by two examiners.

(3) In the case of promotion examinations, and of special or technical examinations for the First and Second Divisions, as far as possible one of the two examiners shall be selected from within the department in which the appointment is to be made, and the other from without.

30. Examiners for the Inside Service shall be paid in accordance with the following scale of fees:—

To each examiner for setting a paper for the general competitive examination for the First and Second Divisions	$15 00
Where the examination is one of a special or technical character for the First or Second Division of the Inside Service, and where not more than five candidates are taking the same examination, each examiner shall be allowed $20 for setting the paper and valuing the answers.	
To each examiner for setting a paper for the Third Division examinations	10 00
To each examiner for setting a paper for the lower grade examinations	5 00
To each presiding examiner at the various centres where the examinations are held:—	
Per day	10 00
Per half day	5 00

Where the number of candidates at any centre exceeds twenty-five, an assistant examiner may be appointed for such additional number up to twenty-five, and other additional assistants may be appointed in like proportion, where the number of candidates exceeds fifty.

To each assistant to the presiding examiner:—

Per half day	3 00

For valuing the answers in the case of the general competitive examinations, the compensation shall be as follows:—

The Preliminary and Qualifying Examinations prescribed by the Civil Service Act for the Outside Division of the Civil Service shall be held semi-annually at the same times and places as the examinations for the Inside Division of the Civil Service and shall be conducted in like manner and governed in all respects by the rules and regulations prescribed for the examinations for the Inside Service, with the following exceptions, viz.:—

(1) The Preliminary Examination shall include the following subjects of the ordinary public school standard: Writing, spelling, and the first four rules of arithmetic. The maximum number of marks in each subject shall be one hundred. The minimum percentage for qualification shall be forty per cent in each subject and fifty per cent on the whole examination.

(2) The Qualifying Examination shall include the following subjects: Writing and copying manuscripts, spelling (including dictation), arithmetic, geography, history, and composition. The maximum number of marks for each subject shall be one hundred, excepting in the subjects of writing and copying manuscripts, for each of which the maximum number shall be fifty marks. The minimum percentage for qualification shall be forty per cent in each subject and fifty per cent on the whole examination. The standard of examination shall require a good general knowledge of the above subjects.

(3) Candidates in the Qualifying Examination who fail in one subject only, but who make the required aggregate of fifty per cent, or three hundred marks, may come up for the subject in which they failed at any one or more subsequent examinations, and, on their passing the same, the marks made in the other subjects at the previous examination will be allowed them, but candidates failing in more than one subject, or in the aggregate, if they come up for examination again, must take all the subjects required.

(4) Every successful candidate at the Preliminary or Qualifying Examination will receive a certificate from the Commission.

It seems to be made especially for the woodman and the campor. It is a magazine, a furnishing store set up in the wildernus, whose goods are free to evry comer. The hole equipment of the camp lyes folded in it and cums fourth at the beck of the woodmans ax: tent, waterproofe roofe, boat, tabelcloths, paper for letters, spoones, napkins, kamp utensels, buckits, torches, kandels, kindling wood and fewl. The canoe-burch yields you its vestments with the utmost liberalty. Ask for its coat and it gives its wastecoat allso. It's bark seams rapped about it, lair upon lair, and comes off with great eze. We saw manny rood struckturs and cabbins shingled and sided with it. When, won day, we were overtaken by a shour in traveling threw the woods, our gide

All the people of the little village are busy. One is clearing a spot on the edge of the forest for a homestead; another is hewing the trunk of a fallen pine tree in order to build himself a dwelling; a third is hoeing in his field of Indian corn. Here comes a huntsman out of the woods, dragging a bear which he has shot, and shouting to his neighbours to lend him a hand. There goes a man to the seashore, with a spade and bucket to dig clams, which were a principal article of food with the first settlers. Scattered here and there are two or three dusky figures clad in coats of fur, with ornaments of bone hanging from their ears, and the feathers of wild birds in their coal-black hair. They have belts of shell-work slung across their shoulders, and flint-headed spears.

And now rises a cry that a pack of wolves have seized a young calf in the pasture, and every man snatches his gun or pike and runs in chase of the beasts.

WRITING.

Time: 30 minutes.

Value—100.

Copy the following extract:—

The development of Canada, during the last twenty years, in population, commerce and industry, has been very marked, and has been especially conspicuous in the western provinces. The Northwest Territories, which at first were governed from Winnipeg—the Lieutenant Governor of Manitoba being also Lieutenant Governor of those territories—were organized as the provisional districts of Assiniboia, Saskatchewan, Alberta and Athabaska (May 17, 1882), under a Lieutenant Governor of their own, with the seat of government at Regina. With the growth of population, they rapidly advanced toward provincial status, and on September 1, 1905, the four territories were organized as the two provinces of Saskatchewan and Alberta, the capital of the first being fixed at Regina, and of the second at Edmonton. The discovery of gold in the Yukon country led to its organization as the Yukon Territory (June 13, 1898), and as such it returns a member to the Dominion Parliament.

COMPOSITION.

Time: 2½ hours.

Value—100.

I. Write a composition (*not* in the form of a letter), about 350 words in length, on *one* of the following subjects:—

1. Influence of Athletics on Character.
2. Some Considerations for and against Compulsory Military Training and Compulsory Military Service.

3. A Harvesting Scene—a Description.
4. The Appearance and Habits of Some Animal.
5. An outline of the Life of a Celebrated Canadian.

II. Give, in condensed form (about 350 words) and in well-constructed sentences, the substance of the following passage (omitting the motion):—

It was moved: "That in the opinion of this House, the Government should take immediate steps to operate terminal elevators at Fort William and Port Arthur, and the transfer elevators between those terminals and the Atlantic seaboard."

Mr. Speaker, in submitting this important motion to the House, I do not think I need make any apology. I know that when questions of this kind, affecting western Canada, have been brought before this House, some honourable members from eastern Canada have been inclined to regard them as of no interest to themselves. But, Sir, if there is any one question that is of national importance to this country to-day, it is the question of elevators. My honourable friend, the leader of the Opposition, the other day referred to the splendid progress that is being made in Canada, as evidenced by the great growth in population and importance of the great cities of eastern Canada. If Montreal to-day has a population of over half a million and Toronto boasts of a population nearly as great, I think I can justly claim that 75 per cent of the advancement made by these large eastern cities is due to the progress and development of the three prairie provinces. I think it would surprise very many members of this House to have accurate statistics of the trade which has come to eastern Canada because of that development. That western country is overrun with commercial travellers representing all branches of trade and industry in this country, and I believe the great manufacturing concerns of the country admit that their trade and prosperity during the last ten years has been largely due to the development of the Northwest. If that is a fact, and I believe it is, why should not eastern Canada be deeply interested in the great question of elevators? It is true, my motion has reference especially to what are called terminal and transfer elevators, but to my mind there is a strong connecting link between all the elevators which are utilized in the handling of the grain from the time it leaves the farmer's wagon until it reaches its ultimate market. This subject has been debated before in this House. A few days ago the honourable member for Regina brought up a motion on this subject, and although it did not contain all that it should, his speech did. I read the speech of the honourable gentleman, and I do not think he will take any exception to the statement that his general conclusion was, that the only way in which we could properly control these terminal and transfer elevators was by the system which I propose to-day, of government operation. I want to say that I do not approach this subject with any partisan motive. If there is any subject upon which the western members can agree, it is this one of elevators, which is closely allied to the great question of transportation.

Now, we have in this country what may be termed three classes of elevators. First, we have the line elevators, which are scattered over the three prairie provinces wherever there is a line of railway. I think I would not be far astray in saying that there are some 2,000 of these line elevators scattered over the three prairie provinces. These line elevators are the links between the farmers' wagons and the railways. We have what we call loading platforms, and it was somewhat of a surprise to me to find that during the last year some 15,000,000 bushels of wheat were loaded from these platforms.

Although there may be diversity of opinion as to how these line elevators are to be operated, I do not think there is any diversity of opinion among the grain-growers as to how the terminal elevators should be operated in the best interests of the producers. Other methods have been tried, but we have all come to the conclusion that

the warehousemen must not have an interest in the grain. As to the ownership, I do not know that it makes very much difference who owns these elevators, but it does make a tremendous difference to the producers who shall operate them.

Now, I named the three classes of elevators: the line, the terminal and the transfer elevators. As to the terminal elevators, I believe our principal duty to-day lies with the elevators at Port Arthur and Fort William. Our farmers have known for years that our wheat was being manipulated in these terminal elevators. Formerly, all our troubles were in connection with the line elevators, but now they have been increased in connection with these terminal elevators. The Government have tried ways and means, and it may surprise this House to know that to-day this Government is employing 95 men at Port Arthur and Fort William—what for? To handle this wheat? No, Sir, just to watch the other fellows that are stealing the wheat. They are there for no other reason. There is an absolute duplication of the men, the men who own the elevators and the men who are operating, and this Government is paying $61,000 in employing 95 men to watch these other men, and who pays this $61,000? It all comes out of the grain-growers; the wheat must pay all these men, there is no question about that. Now, has there been any manipulation of wheat in Port Arthur and Fort William? We believe that it has been going on for years. When I brought this question up before, an amendment was moved from the other side of the House for delay, on the ground that the Government was going to appoint men to supervise this work, and they did make appointments. At the very time of the instance I gave this afternoon, there were some 75 men watching the operation of this mixing. Nevertheless, this mixing is going on. I do not think that I am giving away any confidence when I say that I believe from information that the Department of Trade and Commerce is just as fully convinced as I am that it is going on, and they know that the only possible way we can protect the producer is that the man who operates the warehouse shall have no financial interest in the grain, and I think that can only be accomplished by government operation.

Prospecktive emigrants to Canada will bear in mind that the classes of peepul this country espeshally needs are capatilists to develup our natcheral resorses—mines, timbre, water powers, etc.—by bilding and operating manufactorys and kindred industrys; farm settlers and farm helpers, male and female. As the country grows, there will, of coarse, be increesed openings for murkentile and profeshional men, mecanicks, etc., but our schools and colledges are turning out these, generally speeking, as there is demand for them. Persons of these classes who dezire to come will

do well to have seacured openings in advants of emigrashun. For all of the first-named classes who are industryous there is allmost an unlimited demand. There are plenty of oppertunities for all sutch in this as well as in evry other districkt of all the knewer parts of Canada. Farm help, male and female, can allways find plenty of emploiment at good wages in all the older parts of evry province of Canada. As masheenery is, to a lardge eckstent, even on the farms, displaceing manewel laber, those who are of a mecanical turn of mind to handel agriculcheral implemeants, and can care for teems and farm stalk, need never be out of prophetabel emploiment. In a generation all the best land on this continent will be taken up. But thanks to the far-reaching wisdom of our fathers, the greater part of the world will be open to the trade, to the colonizing, and to the enterprise of our children. We shall not be confined to a frozen north or to a single continent. We shall take part in work of world-wide significance, and shall act out our belief that God loves not North America only, but the whole world. Only on condition of the British Empire standing, can this be done. This is the ideal that we should set before us, and remember that no people has ever been a great or permanent factor in the world without high ideals. I know that this advantage to which I am referring is not one that can be calculated in dollars, but it is an advantage, none the less, for which many of us are content to struggle, and, if need be, to suffer. What are we in this world for? Surely for something other than to still the craving of appetite. Surely for something higher than to accumulate money, though it should be to the extent of adding million to million. Surely we are in the world for something better! Yes, we are here to think great thoughts, to do great things, to promote high ideals. This can be done only through faithfulness to the best spirit of our fathers. Society is an organism, and must preserve its continuity. It must work, too, through instruments; and the most potent instrument on earth for preserving peace, order, and liberty, is the Empire of which we are citizens.

400 Jackson St., St. Paul, Minn.,
March 31, 1913.

The Superintendent of Immigration
Ottawa.

Sir,—About the time of my appointment as agent in charge of the St. Paul office, the territory was divided, an office being opened at Crookston which took a portion of Minnesota, and one at Des Moines, Iowa, both taking a large portion of the business hitherto credited to this office.

I have travelled over most of the territory under my jurisdiction, interviewing farmers who have applied for information, and have been astonished to note the keen interest taken in the Canadian West.

I think I am safe in saying that the movement from my territory this season is, without doubt, one of the best in the history of the work.

The average Minnesota farmer goes to Canada well equipped, having a splendid outfit of farm implements, and this, coupled with his years of practical experience in farming in this State, makes him an ideal settler.

Last session the Minnesota Legislature voted $100,000 to be spent in immigration work for this State. They also opened an office directly opposite us on Jackson Street, with a permanent display of Minnesota products.

Considering the loss of territory, I think this office has made as good a showing as in previous years.

Your obedient Servant,

A. B.,
Canadian Government Agent.

25 4. Write a synopsis of the following extract from a speech delivered in the Canadian House of Commons, August 19, 1914:—

So to-day England is at war. Her fleets are maintaining the freedom of the ocean. Her armies have already crossed the channel towards plains made famous more than once by British valour, this time to maintain the independence of Belgium by taking a place in the fighting line beside the small and heroic Belgian army, and to help scarcely less heroic France, whose forces are concentrated in an effort to repel the invader and to maintain and save intact that which to a proud nation makes life worth living.

We cannot forget that the issue of battles is always uncertain, as has been proven already in the present contest. In invading Belgium, some two weeks ago, the German Emperor invoked the memory of his ancestors and called upon the blessing of God. The German Emperor might have remembered that there is a treaty guaranteeing the independence, the integrity, the neutrality of Belgium, and that this treaty was signed in the last century by the most illustrious of his ancestors, Emperor William the First of Germany. He might have remembered also that there is this precept in the Divine Book: "Remove not the ancient landmarks which thy fathers have set up." But the German Emperor threw his legions against this landmark in the fullness of his lust of power, with the full expectation that the very weight of his army would crush every opposition and would secure their passage through Belgium. He did not expect, he could not believe, that the Belgians, few in number and peaceful in disposition and in occupation, would rise in his way and bar his progress; or, if he harboured such a thought for one moment, his next thought was, that if he met such opposition, he could brush it aside by a wave of his imperial hand. Sir, he should have remembered that in the sixteenth century the ancestors of the Belgians rose against the despotism of Philip II of Spain, and through years of blood and fire, and

miseries and sufferings indescribable, they maintained an unequal contest against Spain—Spain as powerful in Europe at that time as the German Empire is to-day. Sir, if there are men who forget the teachings of their fathers, the Belgians are not of that class; they have proved equal to the teachings of their fathers; they have never surrendered; the blood of the fathers still runs in the veins of the sons; and again to-day, through blood and fire, and miseries and sufferings indescribable, they hold at bay the armies of the proud Kaiser.

Eighty Words per Minute.

A mistaken idea has spread abroad in this country that everybody in the West has become rich during the last | few years. The farmers of western Canada have just as hard a struggle to-day, and have had for | years, to make ends meet, as the first farmers in Ontario had in the early days of that province. | It is true that some of the farmers have dealt in real estate and farm lands, and have made money. | We have some millionaires in western Canada, but they have made their money, as a rule, out of real estate. | We are now getting down to normal conditions in the West. People are finding out that they need relief from | these excessive freight rates, and they also need larger and more convenient markets. The people in the East must realize | the fact that the West is in a very discontented condition at the present time. The railroads in western Canada | are doing good business and are making money, but they are not expanding more quickly than they should. There are | large sections of territory in western Canada without railway facilities, where railroads have been promised and not yet provided. | In those sections we have discontented people. We want more railways, but, when they come into the country, we want | them to treat the people fairly, and to give them as good treatment as the people of eastern Canada receive. |

One Hundred Words per Minute.

We are led to believe that the greatness of the Empire depends on the greatness of her fleet and on the strength of her army. | We are taught that the Empire would not be what it is to-day had it not been for its achievements upon land and sea. | Yet while I am willing to concede that much of the glory and might and power of England has been the result of her strength, | not merely upon the sea, but upon the land as well, I am not unmindful of the fact that the greatest glory of England lies |

in her achievements in art, and science, and literature. England is known the wide world over, not so much for the might of her navy | and the achievements of her army, as for the position she has taken among the nations of the world with regard to the advance of | civilization and the achievement of her sons in the literary world. A nation that can take credit to herself for having produced as many poets | and writers as all the rest of the world combined has just reason for pride, and I think it is well for us to realize | that if we are to take pride in being associated with such an Empire, that pride should not be confined to the achievements on the | sea and on the land of her mighty armies and her incomparable fleet. Her advances, her developments, her accomplishments are not confined within the borders | of the two small islands; signs and evidences of these mighty accomplishments are to be seen everywhere throughout the known and the civilized world. | There is a feeling in this country that Canada should not be neglectful of what she owes to herself in the development of the country. |

The magnificent display of pedigree live stock at Lincoln last week testified in no uncertain degree to the vital importce of stock breeding to the farm[g] industry of this country. The show in quality as well as extent was admitted by the numerous visitors fr. foreign countries & the colonies, who were present, to stand out above anything they have ever seen outside of the United Kingdom. Nor were their assurances meant as agreeable compliments merely, for their very presence was practical proof of the sincerity of their utterances. – most of them were in quest for animals of one or other of the numerous breeds –

The most important point to lay to heart in connect[n] with this great quest[n] is the necessity of reject[g] firmly any alterat[n] in the condit[ns] under wh the exist[g] state of prosperity & success has been obtained. It is significant of the far-reach[g] importce of the subject that foreign & colonial buyers are even more emphatic in their advocacy of a policy of protect[n] against invad[g] diseases than are the stockowners at home. One after another of the representatives fr abroad, at the Lincoln show, asserted vigorously that it was only by maintain[g] absolute freedom fr devastat-

Downing Street, 25th October, 1912.

Sir,—I have the honour to transmit to Your Royal Highness the accompanying copy of a memorandum relating to the requirements of the naval defence of the Empire.

This document has been prepared by the Admiralty, on instructions of His Majesty's Government, in compliance with the request of Mr. Borden, with a view to presentation to the Dominion Parliament if, and when, the Dominion ministers deem it necessary.

I have, etc.,
L. Harcourt.

In case of an emergency, the Governor in Council may place at the disposal of His Majesty, for general service in the Royal Navy, the naval service or any part thereof, any ships or vessels of the naval service, and the officers and seamen serving in such ships or vessels, or any officers or seamen belonging to the naval service.

The following table shows the amount of Canadian silver and bronze money coined at the Ottawa mint from January 2, 1908, to March 31, 1913:—

Year.	Silver.	Bronze.
1908	$ 313,338	$ 23,290
1909	673,043	39,441
1910	1,979,572	51,619
1911	985,178	46,599
1912	1,383,832	51,095
1913	375,480	10,754
	$5,710,942	$222,798

In the Klondike and in the Yukon we have produced about $200,000,000, and the surface of the country is hardly scratched yet. The area of the territory which has been explored, compared with the total area of the territory, is about like a postage stamp on a post-card, and the future of the gold industry in the Yukon is assured. We have probably invested now in the gold industry there nearly $20,000,000 of New York and English money. As I understand it, we have about $30,000,000 of Dominion notes, against which we place 25 per cent of that amount in gold in the vault, that is, seven and a half million dollars. Is there any reason why that seven million dollars should not be in Canadian rather than in American currency?

The value of gold bars prepared for and sold to various manufacturing companies and banking institutions has increased from $9,410 in 1910 to $296,592 in 1912. Hitherto the whole of such bullion has been obtained from the United States. The Mint, in other words, is quite equipped for refining the gold, stamping it and selling it to bankers or manufacturers who may desire the precious metal refined and authoritatively stamped. The Master of the Mint quite acquiesced in the view that it is very desirable that Canadian manufacturers, instead of sending the gold to New York to be assayed, with all the attendant troubles of customs and transportation, should have the work done here. It is the intention to do so.

The output of gold in the Yukon is increasing. Last year we produced a little over $5,000,000. Some three or four years ago the production was between two and three million dollars. Of that $5,000,000 about a million and a quarter came to the Mint at Ottawa. Some $1,470,000 was minted here in 1911, of which amount about one and a quarter millions was composed of Yukon gold.

In Porcupine, the production of gold next year will be $8,000,000, probably $12,000,000, and the production is steadily increasing. For the first time the province of Ontario has proved to be gold-producing, so that the output of Porcupine is almost phenomenal.

M. Jules Cambon, French Ambassador at Berlin, to M. Stéphen Pichon, Minister for Foreign Affairs.

BERLIN, May 6, 1913.

I was talking this evening to the Secretary of State about the Conference of Ambassadors and the results obtained at the meeting in London yesterday. The crisis with which Europe was threatened is in his opinion over, but only temporarily. "It

seems to me," said Herr von Jagow, "that we are travelling in a mountainous district. We have just reached a difficult pass, and we see other heights rising in front of us." "The height which we have just surmounted," I replied, "was, perhaps, the most difficult to cross."

The crisis which we have just gone through has been very serious. Here the danger of war has been considered imminent. I have proof of the anxiety of the German Government by a number of facts which it is important that Your Excellency should know.

I received yesterday a visit from one of my colleagues with whom I maintain special and cordial relations. On the occasion of the visit he paid to Herr von Jagow, the latter asked my colleague confidentially what was exactly the situation of Russia in the Far East, and whether this Power had at the present time any cause for fear which might necessitate the retention of its troops in that quarter. The Ambassador answered him that he knew of nothing, absolutely nothing, which could be a cause for preoccupation to the Russian Government, and that the latter have their hands free in Europe.

I said above that the danger of war had been regarded here as extremely near. The Government have not been satisfied with investigating the position in the Far East; preparations have even been made here.

The mobilization of the German army is not restricted to the recall of reservists to their barracks. There is in Germany a preliminary measure which we have not got, and which consists in warning officers and men of the reserve to hold themselves ready for the call, in order that they may make the necessary arrangements. It is a general call to "attention," and it requires an incredible spirit of submission, discipline and secrecy, such as exists in this country, to make a step of this kind possible. If such a warning were given in France, a thrill would run through the whole country, and it would be in the papers the next day.

This warning was given in 1911 during the negotiations which I was carrying on with regard to Morocco.

Now it has been given again about ten days ago—that is to say, at the moment of the Austro-Albanian tension. I know that this is so, and I have it from several different sources, notably from officers of the reserve who have told it to their friends in the strictest confidence. These gentlemen have taken the necessary measures to put aside in a safe the means of existence for their families for a year. It has even been said that it was for this reason that the Crown Prince, who was to make the trial trip on the *Imperator,* did not embark.

The decision which occasioned this preliminary mobilization order is quite in keeping with the ideas of the General Staff. On this point I have been informed of some remarks made in a German *milieu* by General von Moltke, who is considered here as the most distinguished officer of the German army.

The intention of the General Staff is to act by surprise. "We must put on one side," said General von Moltke, "all commonplaces as to the responsibility of the aggressor. When war has become necessary, it is essential to carry it on in such a way as to place all the chances in one's own favour. Success alone justifies war. Germany cannot, and ought not, to leave Russia time to mobilize, for she would then be obliged to maintain on her eastern frontier so large an army that she would be placed in a position of equality, if not of inferiority, to that of France. Accordingly," added the General, "we must anticipate our principal adversary as soon as there are nine chances to one of going to war, and begin it without delay in order ruthlessly to crush all resistance."

This represents exactly the attitude of military circles, and it corresponds to that of political circles; the latter, however, do not consider Russia, in contradistinction to us, as a necessary enemy. This is what was being thought and said privately a fortnight ago.

From these events the following conclusions may be drawn, which comprise the facts stated above: These people are not afraid of war, they fully accept its possibility, and they have, consequently, taken the necessary steps. *They wish to be always ready.* As I said, this demands qualities of secrecy, discipline and persistency; enthusiasm alone is not sufficient. This lesson may form a useful subject of meditation when the Government of the Republic ask Parliament for the means of strengthening the defences of the country.

L'HOMME MOU.

L'homme mou et amusé ne sera jamais qu'un pauvre homme! et s'il se trouve dans de grandes places, il n'y sera que pour les déshonorer; ce n'est pas un homme, mais une demi-femme. L'amour de ses commodités l'entraine malgré ses plus grands intérêts. Il ne peut cultiver ses talents ni acquérir les connaissances nécessaires à sa

profession, ni s'assujettir longtemps au travail dans les fonctions pénibles. Il veut de loin ce qu'il faut vouloir; mais les mains lui tombent de langueur dès qu'il voit le travail de près. Que faire d'un tel homme? Il n'est bon à rien. Les affaires l'ennuient, la lecture sérieuse le fatigue, le service de l'armée trouble ses plaisirs; il faudrait lui faire passer sa vie dans un lit de repos. Travaille-t-il? les moments lui paraissent des heures; s'amuse-t-il? les heures lui paraissent des moments. Tout son temps lui échappe; il ne sait ce qu'il en fait; il le laisse couler comme l'eau sous les ponts. Il ne faut pas lui demander ce qu'il a fait de sa matinée; il n'en sait rien, car il a vécu sans songer s'il vivait; il a dormi le plus tard qu'il a pu, s'est habillé fort lentement, a fait plusieurs tours dans sa chambre. Le dîner est venu; l'après-dinée se passera comme le matin et toute sa vie comme cette journée.

FEELINGS AT NIGHT.

It is night now; and here is home. Gathered under the quiet roof, elders and children lie alike at rest. In the midst of a great peace and calm, the stars look out from the heavens. The silence is peopled with the past; sorrowful remorses for sins and short-comings—memories of passionate joys and griefs rise out of their graves, both now alike calm and sad. Eyes, as I shut mine, look at me, that have long ceased to shine. The town and the fair landscape sleep under the starlight, wreathed in the autumn mists. Twinkling among the houses a light keeps watch here and there in what may be a sick-chamber or two. The clock tolls sweetly in the silent air. Here is night and rest. An awful sense of thanks makes the heart swell, and the head bow, as I pass to my room through the sleeping house, and feel as though a hushed blessing were upon it.

5. While he was here we made several trips into the country. He said he had never seen so beautiful a district.

6. As we had not been in this large city before, I was obliged to ask concerning the way. I turned, therefore, to a passing gentleman and said: "Excuse me, Sir, could you tell me the shortest way to the railway station?" "I am sorry," he replied, "but I am also a stranger here." Soon we met a young workman, who said we were to go straight on as far as the second street, and then to the left. "How long will it take us?" "About ten minutes, not more." After we had been walking for some time, I again said to a policeman: "Are we on the right way to the station?" "Yes," said he, "go round the next corner to the right and you will see it in front of you."

II. *Translate into English:*

1. Eine notwendige Voraussetzung der Gesundheit und des Wohlbefindens ist genügende Bewegung im Freien und Betätigung der körperlichen Kräfte. Am meisten bedürfen der wohlüberlegten Körperarbeit diejenigen Menschen, deren Beruf sie zu einer sitzenden Lebensweise und zu anhaltender geistiger Anspannung nötigt.

Fast jeder Mensch wird täglich wenigstens zu einer Art der Leibesübung kommen, zum *Gehen.* Hat man keinen weiten Weg nach seiner Arbeitstätte zu Fuss zurückzulegen, so ist ein täglicher Spaziergang dringend geboten. An freien Tagen empfehlen sich grössere Wanderungen durch Wald und Gebirg.

2. Wichtiger noch als die Erfindung des Schiesspulvers ist die der Buchdruckerkunst. In früherer Zeit bediente man sich nur der geschriebenen Bücher. Für die Klosterbibliotheken schrieben die Mönche die Bücher ab, für den Verkauf die Bücherabschreiber, welche eine eigene Berufsklasse bildeten.

Da solches abschreiben viel Zeit und Mühe erforderte, so war es kein Wunder, dass ein einziges Buch oft recht teuer war und 300 und mehr Mark kostete. Freilich war dann solch ein Buch auch ein wahres Meisterwerk von Zierlichkeit und Genauigkeit der Arbeit. Die Anfangsbuchstaben wurden sehr gross gemacht, mit schönen Farben ausgemalt und oft mit Gold ausgefüllt, so dass in manchem Buche allein für 100 Mark Gold steckte.

The antient Romans, as well as the Greeks, worshiped the powers of nature; but the Grecian gods and godeses were living, loving, hating, quarelsome beings, with a histery full of romantik insident and personel adventur: the Roman deatees were solem abstrakshuns, misteriously governing every human action and requiring constent propishiation with prayers, gifts, and sakrifises. A regular sistem of barganing existed betwen the Roman worshiper and his gods. If he pirformed all the stipullated religus duties, the gods were bound to conferr a reward; if he faled in the least, the devine vengence was sure. At the same time, if he could detekt a flaw in the letter of the law, or sheald himself behind some doutful teknikality, he might cheet the gods with impunety.

In religion, as in everything else, the Romans were always redy to borrow from other nations. They drew upon the gods of Greece until in time they had transferd and addopted nearly the entier Greek Pantheon. With the addopshun of the Greek gods, the Greek idees of personallety and mithollogy were introdused, the Romans being too unimaginatif to origenate any miths for themselves. But out of the hardness of their own karacter, they disfigerred the origenel conseption of every borowed god, and made him more jellous, mercyless, revengful and inexereble than before. Among the thirtie thousand deatees with which they peepled the visebel and invisebel worlds, there was not one devinety of kindness, mercy or comfort.

Among the barbarous native races of North America, the tribes of the Iroquois Confederacy, though scarcely rising above the hunter stage, offer a study of peculiar value in reference to the ethnology of the new world. In the great valley of the St. Lawrence, at the period of earliest European contact with its native tribes, we find this

confederacy of Indian nations in the most primitive condition as to all knowledge of progressive arts, but full of energy, delighting in military enterprise, and amply endued with the qualities requisite for effecting permanent conquests over a civilized but unwarlike people. Nor did the primitive arts of the Iroquois prevent the development of incipient germs of civilization among them. In their rude state they achieved a remarkable civil and military organization, and acquired more extensive and enduring influence than any nation of native American lineage, excepting the civilized Mexicans and Peruvians. Agriculture was systematically carried on, and their famous league, wisely established, and maintained unbroken through very diversified periods of their history, exhibits a people advancing in many ways towards the initiation of a self-originated civilization, when the intrusions of Europeans abruptly arrested its progress and brought them in contact with elements of foreign progress pregnant for them only with sources of degradation and final destruction. In the seventeenth century the Iroquois were the greatest aggressive nationality of the continent, to the north of Mexico.

Books are to mankind what memory is to the individual. They contain the history of our race, the discoveries we have made, the accumulated knowledge and experience of ages; they picture for us the marvels and beauties of nature; help us in our

difficulties, comfort us in sorrow and in suffering, change hours of weariness into moments of delight, store our minds with ideas and fill them with good and happy thoughts. Precious and priceless are the blessings which books scatter around our daily paths. We may walk in imagination with the nobler spirits through the most sublime and enchanting regions. Without stirring from our firesides we may roam to the remotest regions of the earth; we may transport ourselves to the mountains or the seashore, and visit the most beautiful parts of the earth without fatigue, inconvenience, or expense. Books, indeed, endow us with a whole enchanted palace of thoughts. In one way they give us an even more vivid idea than the actual reality, just as reflections are often more beautiful than real nature.

Lake Superior, with its area of 31,800 square miles, is the largest body of fresh water in the world. As the international boundary between Canada and the United States passes through the centre of Lakes Superior, Huron, Erie, and Ontario, only half the areas of these lakes is Canadian. The whole of Lake Michigan is within United States territory. From the western end of Lake Superior to the mouth of the St. Lawrence there is, with the aid of the canal system, a continuous navigable waterway. The total length of the St. Lawrence river from the head of the St. Louis river to the Pointe-des-Monts, at the entrance to the Gulf of St. Lawrence, is 1,900 miles. The tributaries of the St. Lawrence, several of which have themselves important tributaries, include the Ottawa river, 750 miles long; the St. Maurice river, 400 miles long; and the Saguenay, 100 miles long.

   (*a*) The Effect the War is Having on the Canadian People.

   (*c*) The Importance of Punctuality.

2. Condense into about 250 words the ideas of the following extract. Give your answer in well-constructed sentences.

I have discussed this question of industrial schools in the House several times before, and I stated what my views were. My views have not changed, and the policy of the department is just the same as it was when I explained it on a previous occasion. My own belief is that the system of industrial schools as I found it in operation when I took office, is not the best, or the most effective, or the most economic way of improving the condition of the Indians. I thought the system adopted was an artificial system. I found that Indian boys and girls were being kept in these schools in some cases until they were 23, 24 and 25 years of age. The Dominion of Canada is not under any obligation to conduct a system of education for an Indian tribe, under which the education of each child becomes so expensive and so artificial. I put in force a rule that children were not to remain in the schools after the age of eighteen, and that rule has been followed except in a very few cases where for special reasons it has been relaxed. We have substituted a less elaborate system; a system of what we call boarding schools where a larger number of children can for a shorter time be educated more economically and generally more effectively. What we desire to do is not to give a highly specialized education to half a dozen out of a large band of Indians, but if possible to distribute over the whole band a moderate amount of education and intelligence, so that the general status of the band would be raised. While some of those engaged on behalf of the different churches in Indian education, were not of my view at the time, I believe they have pretty well come to that opinion now. I did not think it was justifiable for me to change the policy which had been deliberately entered upon and in regard to which a large amount of money had been expended, so I stated to the House that while on the whole I held that view, I was not prepared to discontinue the industrial schools which existed. I thought I was bound to continue them much on the existing lines, but that the rule should be enforced that pupils should remain until an advanced age. I held, however, that in the establishment of further institutions, the principle should be followed of conducting a boarding rather than an industrial school system. My hon. friend is probably aware that the authorities of St. Boniface industrial school have found that the principle I have advocated was the principle which should be applied in carrying out their work, because the department accepted a proposition of theirs by which they agreed to take off our hands at a valuation the buildings and the property of the industrial school at St. Boniface, and to build three boarding schools in lieu thereof. They agreed with my opinion that the boarding schools, where a less elaborate and lengthy system of education would be carried on and a larger number of children benefited (these schools being placed at different points upon the reserve) was much more beneficial than the carrying on of one industrial school at St. Boniface. We are carrying on the industrial school which exists at the present time. Our desire is not to multiply them, but to inaugurate boarding schools wherever additional educational facilities are required. Experience shows that in order to get really effective results, the boarding school must be resorted to. In some places where we have day schools, and where we cannot incur the expense of a boarding school, the results are not as satisfactory as we could hope.

Lake Louise, the "Lake of the Little Fishes" of the Indian, is a deep-coloured body of water between wooded slopes which sweep upward to barren cliffs above the tree-line. Directly across the valley and beyond the lake rises a giant of the continental watershed, Mount Victoria, rich with brilliant ice-fields; but the lake draws our wandering eye back to its contemplation. At every season, every hour, most alluring is that haunted lake, among the pine-clad mountains, forever smiling upward to the skies. Whether in springtime, when the green leaves fringe it with their fresh-won life, or in summer's full splendour, or under the spell of autumn's crimsoning fingers, its compelling charm varies but does not diminish. But it is in winter that it most wins us, its expanse of mystic white striking us with solemn awe, the while it uplifts us from the littleness of the world of men and striving. Its brilliant bosom of ice makes then a striking contrast to the dark forests and shadowy encircling cliffs.

In the sunset hour, too, with every pinnacle and feature of its craggy sides defined against the sky-line, with every bough and feathery tip of fir standing out in clearest detail, its wondrous beauty grips us. Later still, when the middle distance is a soft mystery, and the glow fades, and the stars come out in advancing squadrons, we linger by this witch-lake, loath to leave its weird charm. Round the margin of the lake cluster flowers which refuse to be exterminated by the thoughtless greed of daily visitors. Yellow violets are here, with a pleasing number of greenish orchids.

with a total capacity of 60,000 cub. ft. on the dock wh. these steamers are berthed, as far as the C.P.R. line is concerned,

Improved Port Facilities at Montreal — Seven of the new frt sheds were in use last season for the first time, & they were a grt improvement over the old wooden sheds. Rwy tracks are laid along one side of the sheds so that frt can be removed fr the cars to the sheds instead of having to be carted a considerable distance, as was the practice in the past. Seven sheds were finished this spring, & seven more are under way. When these are completed, stevedores will be able to carry on their work to better advantage, & our inspectors will be in a position to insist upon a greater degree of care in the handling of perishable goods.

COMPOSITION.

Time: 2½ hours.

Values.

25 1. On March 31, 1914, A. B., Canadian Emigration Agent at Peterborough, Eng., reported to Y. Z., Assistant Superintendent of Emigration, London, as follows:—

(1) Report deals with work from date of his appointment in September to March 31; new office not opened until October 31.

(2) Files and books show 1507 letters received, 2003 replies, 2671 callers.

(3) 39 shipping agents were visited; lantern slides in great demand; lectures on Canada well attended.

(4) Window displays of fruits, grains, etc., attracted attention.

(5) 10000 Atlases distributed, many letters of appreciation from schoolmasters and children.

(6) Junior assistant kept busy packing and despatching parcels of literature to shipping agents and others; great need of up-to-date literature, as information on Canada is limited.

Write a letter for the Canadian Emigration Agent to the Assistant Superintendent of Emigration, embodying the above information.

25 2. Write a letter to a friend discussing *one* of the following topics. The letter should contain not less than 200 words.

A Canadian Winter, its advantages and disadvantages.
Why I have enlisted for overseas service.
Why I think women should be allowed to vote.
The Canadian Patriotic Fund.

30 3. Write a brief summary of the following report of the Agent of Dominion Lands at X——, Manitoba, mentioning only the essential points:—

Upon comparing the present report with that of last year, you will notice a falling off in the number of timber permits. This, I think, is due principally to the scarcity of ready cash in the hands of the settlers of this district owing to the exceptionally wet season of last year resulting in many cases in total failure, vast areas of splendid crop being left uncut, the farmers being unable to operate their machinery on the wet fields. Of course, there may have been the usual amount of illegal cutting, which the staff of forest rangers and timber inspectors, as usual, have used every effort to suppress.

Numerous inquiries are received from intending settlers, and these are carefully answered, and the fullest information regarding the district given.

The number of applications for land grants received has greatly increased, and it has generally been found that the duties have been performed in a very satisfactory manner, when the fact, that this district is very heavily timbered and hard to bring under cultivation, is taken into consideration. Settlers performing their duties on land in the vicinity, having been relieved of the necessity of building a $300 house, have been able to make application, whereas, under the old ruling, they would not have been in a position to do so financially. The protection until April 1, afforded by the Department was greatly appreciated, and was taken full advantage of by many.

There is a considerable falling off in the number of homestead entries compared with last year. Judging from the numerous inquiries, however, I anticipate an unprecedented rush, as far as this district is concerned, on the throwing open for homestead entry of the seven townships formerly known as the Manitoba West Reserve, which I understand contains large tracts of very desirable land.

There is also a large number of lands which were formerly held by the Provincial Government, which have since been revested in the Crown.

No complaints have been received of non-attention or lack of courtesy on the part of any one of the staff, who have given me most loyal support during my time in this office.

20 4. Write a synopsis of the following extract from a speech delivered in the Canadian Senate, August 19, 1914:—

It is unfortunate and disastrous that those who love peace have to make war, but the time had come when war was inevitable with such a man as the Emperor of Germany at the head of that great nation. He picked his own time for the conflict. He looked around the world and thought he saw a civil war about to take place in Great Britain. He looked at France, and read statements by the Premier of that country that its defences were not what they should be. The Balkan States had been weakened by the late war, and he thought Russia had hardly sufficiently recovered from the contest with Japan. He saw that the overseas possessions of the British Empire were gradually, year by year, becoming more impressed with a sense of their duty to assist the Mother Country. He foresaw that the longer he put the conflict off, the stronger these Dominions would be, and he thought the time had come to strike the blow. He counted on Italy as his ally, but that country thought the contest was brought on unjustly, and so far apparently has no desire whatever to assist the other members of the Triple Alliance.

Now, I ask the Government to put a stop to the exportation of nickel, unless it goes direct to Britain | and the Allies. I ask the Government to put a stop to the exportation of nickel to the United States, | whence it can easily slip through to Germany. The Government will tell me: "Oh, we have an understanding with the | International Nickel Company that they will not sell any nickel to our enemies." Well, who buys it? Why, the Krupps, | the great German cannon-makers, are buying it, and do you expect that it is not going to get to | Germany, perhaps not as nickel, but combined with other metals? Do you think you can trust them? I remember a | few years ago we had at Vancouver and Victoria a German insurance agent, who was a great man out there, | a fine fellow. He invested a lot of money in British Columbia, a good deal of which belonged, so he | said, to the German Emperor. He made a visit to Germany a couple of years ago: he did not return | until after the war had started, and as he was refused admittance to Canada, he remained in the United States, | and

what was found? The German Emperor had endeavoured, through this fine fellow, to have an invitation sent by the | people of the cities of Victoria and Vancouver to German warships to pay a visit to ports in British Columbia. |

One Hundred Words per Minute.

Canada is almost the only country among the larger nations of the world that has no department of public health, defined as such. Every European | country, with the exception of two or three of the smaller States, has a public health service. Japan has a most efficient department, and the | United States, although for many years content to leave the administration of health matters chiefly to the individual States, have since 1871 gradually been developing | a service under the Federal Government. At the close of the Spanish-American War the necessity of an up-to-date service was pressed strongly | upon the Federal Government, and in 1902 the Public Health and Marine Hospital Service was established and provision made for an advisory board. This board | was composed of three competent experts from the army, the navy and from the Bureau of Animal Industry, to be associated with the director, and | five additional members to be nominated by the Surgeon General. This organization has made it possible to provide a large body of trained officials competent | in every branch of public health work, not only to carry out the duties laid directly upon them by Congress, but also to be in | a position to assist in the study of general problems which might affect the health, prosperity and commerce of the whole American people. In 1912 | the duties of the service were further extended, and the whole organized into the Public Health Service of the United States, with a surgeon general in in charge. The situations, in so far as the governments are concerned, are very similar in both Canada and the United States, and the conditions | to be met are also so much alike that Canada may well consider in the light of that experience what her procedure should wisely be. |

I find nothing astonishing in the brilliant part played by France in this war. It is not a new France which is fighting to-day so nobly and so valiantly against the Hun. France is what she has ever been, the knight errant of civilization, of justice and of freedom. I have heard many people in days gone by speak of the French frivolity. My answer to that is the same as was given by the American war correspondent who accompanied the French troops the days following the retreat from the Marne. "A frivolous people? Why," he said, "they are the most thoughtful people in the world: their frivolity is nothing but a disguise. This is no miraculous regeneration. You cannot re-mould a nation's soul in a day, in a week or in a year." Her internal dissensions of the past are but evidence of the intense intellectuality of the French people, and of their keen pursuit of ideals. No, Mr. Speaker, it is the same old France. Even one of our enemies, Count von Buelow, says in his book, "Imperial Germany": "It is a peculiarity of the French nation that they place spiritual needs above material ones."

When I contemplate this nation itself, it strikes me as more extraordinary than any of the events in its history. Was there ever in this world a people so full of contrasts, so extreme in each one of its actions, more guided by emotions and less by principles? Thus always doing better or worse than was expected, at one time below the common level of humanity, at another far above it; a people so stable in their principal instincts that they are still recognizable in portraits that were drawn two or

three thousand years ago, and at the same time so changeable in their daily thoughts and in their tastes, that they themselves are finally astonished at the spectacle they present, and are often as surprised as foreigners at the sight of what they have just done; the most stay-at-home creatures of habit when left to themselves, but once they have been forced, against their will, to abandon their accustomed dwellings and uses, ready to carry all before them to the ends of the earth; intractable by nature, and nevertheless submitting with a better grace to the arbitrary and even brutal rule of a prince, than to the orderly and free government of the principal citizens; one day the avowed enemy of all allegiance, the next day serving with such a passionate devotion as even the nations most prone to servitude cannot attain; people who can be guided by a thread as long as no one resists, but who become ungovernable as soon as the example to resist is given anywhere; thus always deceiving their masters, who fear them either too little or too much; never so free that it is hopeless to try and subjugate them, nor so utterly enslaved that they cannot throw off the yoke; qualified for anything, but excelling only in war; worshipping chance, force, success, show and clamour, rather than true glory; more capable of heroism than of virtue, of genius than of common sense, better able to conceive immense schemes than to consummate great undertakings; the most brilliant and the most dangerous of the nations of Europe. And the most apt to become in turn an object of admiration, hatred, pity, and terror, but never one of indifference.

SIR,—In accordance with the instructions contained in your telegram of the 4th instant, I called upon the Secretary of State that afternoon and inquired, in the name of His Majesty's Government, whether the Imperial Government would refrain from violating Belgian neutrality. Herr von Jagow at once replied that he was sorry to say that his answer must be "No," as, in consequence of the German troops having crossed the frontier that morning. Belgian neutrality had been already violated. Herr von Jagow again went into the reasons why the Imperial Government had been obliged to take this step, namely, that they had to advance into France by the quickest and easiest way, so as to be able to get well ahead with their operations, and endeavour to strike some decisive blow as early as possible. It was a matter of life and death for them, as if they had gone by the more southern route they could not have hoped, in view of the paucity of roads and the strength of the fortresses, to have got through without formidable opposition, entailing great loss of time. This loss of time would have meant time gained by the Russians for bringing up their troops to the German frontier. Rapidity of action was the great German asset, while that of Russia was an inexhaustible supply of troops. I pointed out to Herr von Jagow that this *fait accompli*

of the violation of the Belgian frontier rendered, as he would readily understand, the situation exceedingly grave, and I asked him whether there was not still time to draw back and avoid possible consequences which both he and I would deplore. He answered that, for the reasons he had given me, it was now impossible for them to draw back.

During the afternoon I received your further telegram of the same date, and, in compliance with the instructions therein contained, I again proceeded to the Imperial Foreign Office and informed the Secretary of State that unless the Imperial Government could give the assurance by 12 o'clock that night that they would proceed no further with their violation of the Belgian frontier and stop their advance, I had been instructed to demand my passports and to inform the Imperial Government that His Majesty's Government would have to take all steps in their power to uphold the neutrality of Belgium and the observance of a treaty to which Germany was as much a party as themselves.

Herr von Jagow replied that to his great regret he could give no other answer than that which he had given me earlier in the day, namely, that the safety of the Empire rendered it absolutely necessary that the Imperial troops should advance through Belgium. I gave His Excellency a written summary of your telegram and, pointing out that you had mentioned 12 o'clock as the time when His Majesty's Government would expect an answer, asked him whether, in view of the terrible consequences which would necessarily ensue, it were not possible even at the last moment that their answer should be reconsidered. He replied that if the time given were even 24 hours or more, his answer must be the same. I said that in that case I should have to demand my passports. This interview took place about 7 o'clock. In a short conversation which ensued Herr von Jagow expressed his poignant regret at the crumbling of his entire policy and that of the Chancellor, which had been to make friends with Great Britain and then, through Great Britain, to get closer to France. I said that this sudden end to my work in Berlin was to me also a matter of deep regret and disappointment, but that he must understand that under the circumstances and in view of our engagements, His Majesty's Government could not possibly have acted otherwise than they had done.

I then said that I should like to go and see the Chancellor, as it might be, perhaps, the last time I should have an opportunity of seeing him. He begged me to do so. The Chancellor said that the step taken by His Majesty's Government was terrible to a degree; just for a word—"neutrality," a word which in war-time had so often been disregarded—just for a scrap of paper Great Britain was going to make war on a kindred nation who desired nothing better than to be friends with her. All his efforts in that direction had been rendered useless by this last terrible step, and the policy to which, as I knew, he had devoted himself since his accession to office had tumbled down like a house of cards. What we had done was unthinkable; it was like striking a man from behind while he was fighting for his life against two assailants. He held Great Britain responsible for all the terrible events that might happen. I protested strongly against that statement, and said that, in the same way as he and Herr von Jagow wished me to understand that for strategical reasons it was a matter of life and death to Germany to advance through Belgium and violate the latter's neutrality, so I would wish him to understand that it was, so to speak, a matter of "life and death" for the honour of Great Britain that she should keep her solemn engagement to do her utmost to defend Belgium's neutrality if attacked. That solemn compact simply had to be kept, or what confidence could any one have in engagements given by Great Britain in the future? The Chancellor asked at what price that compact would have to be kept. Had the British Government thought of that? I hinted to his Excellency as plainly as I could that fear of consequences could hardly be regarded as an excuse for breaking solemn engagements. As I was leaving he said that the blow of Great Britain joining Germany's enemies was all the greater that almost up to the last

moment he and his Government had been working with us and supporting our efforts to maintain peace between Austria and Russia. I said that this was part of the tragedy which saw the two nations fall apart just at the moment when the relations between them had been more friendly and cordial than they had been for years. Unfortunately, notwithstanding our efforts to maintain peace between Russia and Austria, the war had spread and had brought us face to face with a situation which, if we held to our engagements, we could not possibly avoid, and which unfortunately entailed our separation from our late fellow-workers. He would readily understand that no one regretted this more than I.

When I was quite young we used to live in the town, but when I was twelve years old, we went to live in the country. It was then that I learned to love nature and to admire all its beauties. I used to get up early, and as soon as I had breakfasted, I went out into the fields and studied the habits of insects and birds. I acquired thus a taste for natural history, and I have studied it ever since in all my leisure moments. Nothing in life has given me so much pleasure as these first studies of my childhood, when my mind began to wake up and interest itself in the works of Creation.

Before I had a garden of my own, I used to walk in the woods and on the river banks; one day I bought a large, square piece of land, which I surrounded with stones in the shape of a wall. I planted inside trees and flowers taken from all kinds of soil; but with this piece of land I purchased thousands of cares.

2. *Translate into English:*

Je recontrai l'autre jour une bonne fée qui courait comme une folle malgré son grand âge.—Etes-vous si pressée de nous quitter, madame la fée?—Ah! ne m'en parlez pas, répondit-elle: il y a quelques centaines d'années que je n'avais revu votre petit monde, et je n'y comprends plus rien. J'offre la beauté aux filles, le courage aux garçons, la sagesse aux vieux et la santé aux malades, enfin tout ce qu'une honnête fée peut offrir de bon aux humains, et tous refusent mes dons.—Avez-vous de l'or et de l'argent? me disent-ils: non? passez votre chemin, nous ne voulons que la richesse. —Or je me sauve, car j'ai peur que les petites roses des buissons ne me demandent des diamants et que les papillons n'aient la prétention d'aller en carrosse dans la prairie. —Non, crièrent les roses qui l'avaient entendu grogner, nous avons des gouttes de rosée sur nos feuilles. —Et nous, dirent en riant les papillons, nous avons de l'or et de l'argent sur nos ailes.

Voilà, dit la fée, les seuls gens raissonables, que j'ai rencontrés dans mon voyage.

True ease in writing comes from art, not chance,
As those move easiest who have learnt to dance.
'Tis not enough no harshness gives offence,
The sound must seem an echo of the sense.

Soft is the strain when Zephyr gently blows,
And the smooth stream in smoother numbers flows;
But when loud surges lash the sounding shore,
The hoarse rough verse should like the torrent roar;
When Ajax strives some rock's vast weight to throw,
The line too labours and the words move slow;
Not so when swift Camilla scours the plain,
Flies o'er th' unbending corn, and skims along the main.

Until a comparatively recent date, South America was to most of us little more than a geographical term, conveying a vague idea of vast distances, sparsely inhabited by races whose principal occupation appeared to be revolution and civil war. The impression was partly justified, on the one hand by the lack of means of communication with those regions, and on the other by the fact that the processes of evolution in the South American States had led to warfare of one kind or another almost continuously from 1840 to 1900. It is practically within the last decade that the principal republics have definitely emerged from their long period of turbulent adolescence, attaining to stability of administration, just laws, and a sense of national responsibility. It is as if the first century of their independent existence had been the school-days of the republics, a period of joyous adventure and hot-blooded youth, of probation and preparation for admission to the family of nations.

While Europe's attention has been fixed on the marvellous achievements of Anglo-Saxon America of the North, the Latin Republics have been finding themselves, and steadily learning the lessons of economic and political wisdom. Practically isolated during the period of the world's greatest material development, South America presents to-day the spectacle of a score of nations eager to enter upon the great inheritance of their boundless resources.

Part II.

Note.—Copy the following, correcting the errors in spelling; 5 marks will be deducted for every misspelled word in your copy.

The tendansy of popelation to centrelize is resulting in an unpresedented groth of towns and cities in all countries. In Canada this unusual growth is ogmented by a

large influx of foren immigrants, and the result is a matter of small satisfaction. Villeges quickly develope into towns; towns in a decade become cities, and the problims insedental to the groth of large cities increse in geometrical ratio to their size.

With a sudenness that is almost starteling, we find our cities cunfrunted by problims, with which they have neither the expereence nor the machinery to cope. The matter of transportashun, for instense, was a simple affare when the villege houses were gruped around the corner-store, but the main street, which esely served for the villege trafic, becomes seriusly conjested, and in the rapidly growing city the gruping together of facteries and huge office bildings places an insuportible burdin upon transportashun fasilitees. The checker-board plan of city subdevision, unbroken by diagonel thorofares, and with inadiquate provision for rapped trancit, intails an excesive waist of time upon citizens going to and from their work.

Such condishuns will continue to grow worse until proper city planning methods are put into practice. To-day civic managment requirs men posesing foresite, men who are specilly trained in solving dificult questiuns of enjinering, sanitation, and transportashun as they are efected by the groth of the city into imediately ajoining terittory.

NOTE.—This part is not to be seen by the candidates. The Examiner in charge will advise them to give attention to spelling, punctuation and writing.

The following is to be twice read aloud; once as a whole to give the meaning, and once by phrases to enable the candidates to write.

It is the appointed lot of some of History's chosen few to come upon the scene at the moment when a great tendency is nearing its crisis and culmination. Specially gifted with qualities needed to realize the fulness of its possibilities, they so identify themselves with it by their deeds that they thenceforth personify to the world the movement which brought them forth, and of which their own achievements are at once the climax and the most dazzling illustration. Fewer still, but happiest of all, viewed from the standpoint of fame, are those whose departure is as well timed as their appearance, who do not survive the instant of perfected success, to linger on subjected to the searching tests of common life, but pass from our ken in a blaze of glory which thenceforth forever encircles their names. In that evening light break away and vanish the ominous clouds wherewith human frailties or tyrant passions had threatened to darken their renown; and their sun goes down with a lustre which the lapse of time is powerless to dim. Such was the privilege of the stainless Wolfe; such, beyond all other, that of Nelson. Rarely has a man been more favoured in the hour of his appearing; never one so fortunate in the moment of his death.

The following is to be twice read aloud to the candidates, who will then write the gist of it in their own words.

KING HENRY AND THE PEASANT.

At the time of Henry the Fourth, King of France, a peasant once rode from his native village to Paris. He had almost reached the gates of the city when he met a gentleman on horseback. It was the King. His suite had remained behind at some distance. "Where do you come from, my friend? Have you some business in the city?" asked the King. "Yes," answered the peasant, "and I have also come to see our dear King; I have never seen him yet." The King smiled and said: "You should have no difficulty in seeing him to-day." "Yes, but if I only knew how to distinguish him among so many courtiers." "If you see a gentleman riding through the streets of the city and everybody standing uncovered, you may be sure that gentleman is the King." The peasant was now riding through the streets beside the monarch, and when he noticed the people looking at them from every window and the passers-by reverently lifting their hats, he looked at the King in amazement, and at last he said: "Sir, either you are the King, or I am."

Le maréchal de camp Sir John French, commandant en chef le corps anglais de débarquement, arrivera à Paris aujourd'hui, à midi 28, à la gare du Nord, ou le ministre de l'Intérieur le saluera au nom du gouvernement.

French! Le glorieux soldat, le conducteur d'armées le plus éminent et le plus populaire qui soit chez nos voisins, a été placé, comme tout le monde l'avait prévu en Angleterre, à la tête de troupes admirables.

Le Général French, avant de rejoindre dans le Nord son poste de commandement, a tenu à venir saluer le Président de la République et le chef du gouvernement. Il sera reçu par M. Poincaré à quatre heures. Il ne séjournera à Paris que quelques heures.

Les troupes anglaises ont débarqué ces jours derniers dans les différents ports voisins de la frontière de Belgique, pour gagner de là leur poste de bataille à la gauche du front.—*Le Figaro, 15 août 1915.*

(*b*) Le Français et L'Anglais.

Un Français et un Anglais se disputaient sur les mérites respectifs de leur nation. La discussion dura longtemps, et chacun garda son opinion, comme bien l'on pense. Cependant le Français, voulant terminer d'une manière polie une conversation qui allait tourner à l'aigre, s'écria: "Du reste, monsieur, si je n'étais pas Français, je voudrais être Anglais."—"Et moi, monsieur," dit l'autre, "si je n'étais pas Anglais, je voudrais être Anglais."

SIR,—

I have the honour to lay before Your Royal Highness the annual report of the Department of External Affairs for the year 1915-16.

I have the honour to be, Sir,

Your Royal Highness's obedient servant,

R. L. BORDEN,

Secretary of State for External Affairs.

REPORT OF THE UNDER-SECRETARY OF STATE FOR EXTERNAL AFFAIRS.

To the Right Honourable,
SIR ROBERT BORDEN, G.C.M.G.,
Secretary of State for External Affairs,
Ottawa.

SIR,—I have the honour to submit the customary brief annual review of the more important matters dealt with in the department's correspondence since the issue of the last report:

EUROPEAN WAR.

The most engrossing of these have naturally been the numerous important questions arising from the European war into which new belligerents have entered on both sides: on the 15th October, 1915, Bulgaria declared war on Servia; war was declared on Portugal by Germany on the 9th March, 1916; and Rumania declared war on Austria-Hungary on the 27th August, 1916.

On the 30th November, 1915, the British, French, Italian, Japanese and Russian Governments signed a mutual agreement not to conclude peace separately during the war; Italy thus associating herself in the policy previously agreed on by the other powers.

ARBITRATION CONVENTION WITH DENMARK.

A convention, to renew for a period of five years from the 4th May, 1916, the convention of the 25th October, 1905, providing for the settlement by arbitration of differences of a legal nature or relating to the interpretation of treaties, was concluded by His Majesty and the King of Denmark on the 3rd May, 1916, and ratified on the 31st July, 1916.

RELATIONS WITH THE UNITED STATES.

MIGRATORY BIRDS CONVENTION.

A convention now only awaiting His Majesty's ratification was concluded with the United States on the 16th August, 1916, for the protection of migratory birds in Canada and the United States by the establishment of close seasons in the two countries. This convention is to remain in force for a period of fifteen years and, if a year's previous notice to terminate has not then been given by either of the parties, to continue in force until terminated at the end of any subsequent year by a year's previous notice.

INTERNATIONAL BOUNDARY WATERS.

(1) St. Croix River—Application of Sprague's Falls Manufacturing Company.

The application of the Sprague's Falls Manufacturing Company, incorporated under Dominion legislation, and of the kindred United States corporation, the St. Croix Water Power Company, for the approval of a dam constructed by the two companies across the St. Croix river at Grand Falls, as well as of a connected power canal, was favourably entertained by the International Joint Commission which imposed the condition that the operation of the necessary works for maintaining a suitable level should be regulated by a Board of Control to be appointed by the two Governments.

(2) St. Mary and Milk Rivers Question.

In connection with the measurement and apportionment of the waters of these rivers as provided for in article 6 of the Boundary Waters Treaty of 1909, Mr. Edward Fisher Drake was designated to undertake the necessary duties on behalf of the Government of Canada, and Mr. John F. Whistler on behalf of the United States.

PEACE COMMISSION TREATY, 1914.

As it was not found feasible to complete the international commission provided for in the above-named treaty within the time specified, it was arranged by an exchange of notes to extend the time fixed by the treaty for this purpose to the 1st January, 1916.

DOMINIONS ROYAL COMMISSION, 1912.

Though in submitting its Fourth Interim Report at the close of 1914 the commission had announced an intention of suspending its sessions until the end of the war, it was in the course of the current year decided to resume the inquiries in Canada which had been interrupted by the outbreak of the war, so that the final report of the commission might be prepared. Arrangements have accordingly been made for the holding of its meetings at various Canadian centres in the autumn.

I might remark that the requirements imposed on the travelling public by the war have very largely increased the department's business in regard to the issue of passports. The increase up to the end of the fiscal year as compared with the previous year was almost sevenfold, and this rate is still further increasing.

I am pleased to put on record my appreciation of the zealous and capable manner in which the various members of the staff have discharged their duty.

I have the honour to be, sir,

Your obedient servant,

JOSEPH POPE,
Under-Secretary of State for External Affairs.

OTTAWA, 31st August, 1916.

REGULATIONS RESPECTING PASSPORTS.

1. Applications for passports should be made on the approved form, which can be obtained from the Department of External Affairs.

In the case of children under the age of 16 years requiring a separate passport a special form to be filled in by the child's parent or guardian will be supplied.

The completed form should be enclosed in a cover addressed to "*The Assistant Under Secretary of State for External Affairs, Ottawa,*" accompanied by duplicate unmounted photographs, of convenient size (carte de visite), one of which will be attached to the passport and the other retained in the Department. One of these photographs must be certified on the back by the recommender as being a genuine photograph of the applicant.

The wife and children under 16 years of age of an applicant may be included in his passport; photographs of the wife must be supplied when she is to be so included.

2. The charge for a passport is two dollars. The fee payable must accompany the application. Postage stamps will not be received as payment.

3. Passports are granted:—

(1) To natural-born British subjects;
(2) To the wives and widows of such persons; and
(3) To persons naturalized in the Dominion of Canada, in the United Kingdom, in other British Colonies, or in India.

A married woman is deemed to be a subject of the State of which her husband is for the time being a subject.

4. Passports are granted:—

(1) In the case of natural-born British subjects, upon the production of a Declaration by the applicant in the authorized form, verified by a Declaration made by the Manager of any Bank (or Branch thereof) established in the Dominion of Canada, or by any *Mayor, Police Magistrate, Minister of Religion, Barrister-at-Law, Physician, Surgeon, Solicitor, or Notary Public,* resident in Canada. The applicant's Certificate of Birth and other evidence may also be required.

(2) In the case of children under the age of 16 years requiring a separate passport, upon production of a Declaration made by the child's parent or guardian, in a Form (B), to be obtained upon application to the Department of External Affairs.

(3) In the case of naturalized British subjects, upon production of the usual Declaration together with the Certificate of Naturalization of the applicant. The certificate of Naturalization will be returned with the passport to the person who has communicated with the Department in the applicant's behalf for delivery to the latter. The application for the passport must be accompanied by a statutory declaration stating that the proposed visit abroad is of a temporary character, giving its probable duration, and indicating the applicant's intention to return to reside permanently in Canada. Naturalized British subjects will be described as such in their passports, which will be issued subject to the necessary qualifications.

5. Passports are not available beyond two years from the date of issue. They may be renewed for four further periods of two years each, after which fresh passports must be obtained. The fee for each renewal is one dollar.

6. A passport cannot be issued by the Department of External Affairs on behalf of a person already abroad; such person should apply for one to the nearest British Mission or Consulate. Passports must not be sent out of the Dominion of Canada by post.

NOTE.—Naturalized British subjects should bear in mind that their naturalization has no effect within the limits of the Foreign State to which they originally belonged, unless they have ceased to be subjects of that state, in the manner prescribed by the laws thereof, or in pursuance of a treaty or convention to that effect.

OTTAWA, 31st March, 1916.
